products by design

Pilots, based in Amsterdam, is a creative, technology driven, agency for **product design** and **engineering**.

By exploring and refining rising market opportunities and translating ideas into persuasive form, function and meaningful user experiences, **Pilots** will help to invigorate and **expand your business**.*

Due to its integrated design strategy **Pilots** has constantly been able to design and develop emerging **technology applications** wrapped in compelling, **award winning, designs****
 Always cost-conscious and according to your high quality standards.

Regards,
 Hans de Gooijer, Wolter Prinsen, co-founders of Pilots
